PRINTER SPECIFICATIONS

MEDIA

Handling 4 zone vacuum table

Max thickness 4" (10 cm)

Rigid media support 78" X 120" & 11 lb/ft² (198x305 cm & 50kg/m²)

PRINT SPEEDS (Vary depending on final configuration)

Maximum speed 768 ft²/hr - Staggered

(71 m²/hr), (24 Boards/hr)*

192 ft²/hr (18 m²/hr), (6 Boards/hr)*

Production 384 ft²/hr - Staggered

(36 m²/hr), (12 Boards/hr)*

128 ft²/hr (12 m²/hr), (4 Boards/hr)*

PRINTING

Max print resolution 1200 dpi

Drop size ADPT 5, 15 & 25 Picoliter

Margin Full bleed capable

Printhead Ricoh

UV curable lamp type LED, estimated life 18,000** hrs

Ink typeSola UV curable inkInk capacity2.5 Liter reservoirs

Connectivity USB

Supported RIP Software StratoFlex / Onyx / Flexi / Caldera / Ergosoft

DIMENSIONS

Assembled dimensions (L x W x H) 150" x 155" x 59" (382 x 395 x 150 cm)

Weight assembled (approx) 4055 lb (1840 Kg)

Shipping dimensions (L x W x H) 162" x 87" x 47" & 168" x 32" x 34"

(412x221x120 cm) & (430x82x87 cm)

Weight shipping (approx) 4050 lb (2019 Kg) & 1750 lb (794 kg)

OPERATION CONDITIONS

Temperature 68 to 79 °F (20 to 26 °C)

Humidity 40% to 70% non-condensing

Electrical 208 - 220 VAC 50/60 Hz 30A

Warranty Limited one year parts & labour

North / South America

SHARK EFB-2032

Rigid/Flexible Substrate Printers

Max versatility

Print the widest variety of rigid and flexible substrates

Increased quality and productivity

Benefit from 1200 dpi grayscale output and feature rich design

Robust design

Experience years of production with confidence

Affordability

Choose the Shark EFB-2032 for its simplicity, affordability and to save money by printing direct to rigids. You have never seen a quality UV curable flatbed so affordable.

With 18 year in the large and grand format industry, Stratojet began production of world-class large and grand format printing solutions in 2008

SHARK EFB-2032

Configure the printer your way:

Standard Colors

Speciality Colors

Light Colors Spot Colors

Choose between regular or high production stagger color configuration, both providing high quality consistent results. Adding Speciality colors Red, Green, Orange and Violet expands your color gamut giving extra vibrant colors as well as an application for

specific corporate colors.

Add Light cyan, magenta and black to produces better spot colors, natural skin tonnes, subtle gradients and shading.

Choose from single or double white and varnish, with white providing the capability to produce a base layer or highlight specific path of an image on clear and dark media, and varnish to create an emboss effect or add gloss

QUALITY WITH TECHNOLOGY

With 1200 dpi high definition output Shark EFB-2032 uses grayscale technology to ensure prints have a smooth gradation in skin tonnes as well as sharp and well saturated solids and text

Stratojet incorporates Accurate Dot Placement Technology (ADPT). The ADPT integrates the printer controller system for color management software to assign a specific drop size along the print, allowing the user to print sharp text and vibrant colors with speed.

VARNISH / CLEAR (OPTION)

Increase your profit margin by providing high value options like spot varnish coating to highlight specific features on the print, or use complete varnish coat to increase print color protection from harsh external conditions.

Also get the option to add a matte or a gloss varnish affect to your prints.

RICOH PRINTHEAD

The Stratojet's Shark EFB-2032 uses Ricoh's latest printheads, known for its high quality and performance.

Stratojet's variable drop size and greyscale technology allows the user to print in true greyscale variable drop at 5, 10, and 15 picoliter(PL) with printing resolution up to 1200 dpi, and deliver high quality output.

WHITE INK (OPTION)

Shark EFB-2032 offers white ink option allowing you to expand your printing applications using the white ink system to print, under-flood, over-flood or use the spot feature on transparent, translucent or colored materials.

The EFB-2032 circulation system recirculates the white ink, to prevent ink particles from settling.

SHARK EFB-2032

Now you can print the highest quality output, eliminate all vinyl cost on rigid jobs, reduce your ink cost and eliminate mounting time and cost

Choose between different performance levels and speciality options such as white and clear coat/varnish ink options, with the confidence.

As your print performance grows, you can also use Stratojet's upgradability feature by adding:

- White ink to print on clear, translucent or colored media
- Clear coat/varnish to highlight or enhance an image
- Add light cvan (LC) and light magenta (LM)
- Add more standard color heads to increase speed
- · Add Red, Green, Violet and Orange for speciality color applications

Your authorized StratoJet reseller can help you find the right fit for your current and future needs.

Corrugated Plastic

Foam Boards

Ceramic Tiles

Glass

UV-LED Lamps

Benefit from LED lamps that have exceptional long life and low power consumption. The Shark EFB-2032 UV-LED lamps don't need to warm up and instantly cures ink dry, while generating low heat to allow more print applications that are heat sensitive.

Sharp TextNever be afraid of printing small text. With the Shark EFB-2032 small picoliter drop size, achieve sharp texts for all of your demanding print jobs.

Built-in Anti-static Bars

Limitless Application

Depending on the media, static can cause quality problems; to minimize these issues, anti static bars are built in the printer carriage.

Print on virtually any rigid media up to 4" (10 cm) thick and offer your

customers durable speciality printed gifts/novelties, POP displays,

composite sheets wooden blocks, phone covers and many more.

proofs/mock-ups, packaging, glass, ceramic tiles, aluminum

Unparalleled Support

Built with the highest quality components, our printing solutions are designed from the ground up with serviceability in mind. Should there be a quality or printing problem, our technicians can ask for a temporary password to log in to your printer, then read, evaluate the log files and find most printer related issues remotely.

Our expertise comes from understanding on how a printer service provider works. We found the majority of service calls are due to application problems, to solve such issues, in Stratojet we start by training our technicians to be application experts before they can become a HW technician.

Robust Design

To increase reliability, Stratojet uses servo motors instead of using significantly inexpensive DC motors. To ensure fidelity across the image, particularly when working on tile applications, Stratojet chose an ink delivery system that pulls the ink with vacuum, instead of a less efficient positive pressure system.

Contact an authorized reseller to demonstrate with detail the quality and reliability of Stratojet's Shark EFB-2032.
